

# The Right Direction:

making TRANSITION from school less daunting

A series of ten events and much more from Kindred for YOUNG PEOPLE and their PARENTS thinking about what comes after school and what Self-directed Support could offer

We can't tell you which way to go but we CAN tell you about your options so you can make CHOICES that feel right for you

**Are you 14 or older, have additional needs and starting to think what life will be like when you leave school?**

**OR are you a parent or carer of a young person about to go through transition to adult life?**

**Do you live in Edinburgh or the Lothians?**

**The Right Direction Project aims to inform parents and young people about transitions - about the various options, and to address some of the worries people might have.**

It'll be a way of meeting other young people and parents in a similar situation, and to find out about what's out there for young people with additional needs.

**Turn over to take a look at what's on offer and let us know which sessions you are interested in by returning the accompanying booking form.**
